PRESIDENT GRANT and family left Chicago yesterday morning at 9 o'clock on a special train for Washington via the Pittsburg and and Fort Wayne railroad. They are expected to arrive here at half-past five o'clock this evening.

MORE VANDALISM .- Three of those beautiful small maples in Scott Square were found sestroyed this morning, having been cut down during the night by some ruthless barbarians. Where are the police whose duty it is to guard our public squares?

ALL THE PAYMASTERS in the departments of California and Arizona are, by orders of the War department just issued, placed directly under the orders of the division commander, Gen. Schofield, who, in his discretion, will have authority to cause an interchange of duties and stations in the respective departments.

GEN. B. R. COWEN, Assistant Secretary of the Interior Department, and Mrs. Cowen, left the city last evening for an extended tour of the far west. En route to the Pacific slope they will look in upon the Saints at Salt Lake city, and subsequently will visit the Yo Semite Val-ley and other interesting points. They expect to return about the 1st of July.

More Competitive Examinations .- The competitive examination to take place about the 16th instant at the Interior department, to fill several fourth class vacancies in the Pension office, which was announced in The Star a few days since, will be followed by examinations to fill eight third class vacancies and several second class vacancies in the same office. The examinations will be mainly confined to matters connected with the practical administration of the business of the Pension Office.

Personal .- The N. Y. Herald yesterday says: Jefferson Rives, of the Washington Globe, with his wife (daughter of Senator Vickers, of Chesteriown, Md.,) were among the passengers by the Scotia for Europe yesterday. ... The Chi-cago Tribune says of ex-Congressman Charles B. Farwell and his back pay: "It is reported that if he does not return it to the Treasury of the United States he will devote the the United States, he will devote the extra pay some public service-probably the Public

POSTAL CARS FOR THE B. & O. RAILROAD. The Post Office department has about perfected arrangements to extend the railway post office service to the main line of the Baltimore and Ohio railroad, between Baltimore and Cincinnati. Five new postal cars have been built and are now ready, with the exception of the interior. The new arrangement will greatly facilitate the delivery of the mails to all points in the west, as the mail metter will be discounin the west, as the mail matter will be distributed in all respects the same as is done on the postal cars between this city and New York.

COMPENDIUM OF THE CENSUS .- The Congressional Printer has just issued the compendium of the ninth census, authorized by the last Congress. It is an octavo volume of 942 pages, and was compiled under the direction of Gen. Walker and Col. George D. Harrington, the latter now in charge of the census office, from the three large quarto volumes, and containing, as it does, the results of all the volumes in convenient form will death the results of all the volumes in convenient form will death them. nient form, will doubtless become very popular as a work of reference. Congress, at its last session, authorized the publication of 100,000 copies of the compendium.

No ATTORNEYS NEED APPLY .- The Commissioner of Pensions has decided that no attorney will be recognized in a claim for increase of pensions, provided for by section 9, act of March 3, 1873, to a single minor already receiving original pension, nor in a claim for in-crease of pensions also provided for by the aforesaid section to minor children of officers. The return of the certificate of pension to the Pension office is the only requisite to the adju-dication of the claim. The Commissioner made a similar decision in the case of the act of June 4, 1872, providing for the increase of cer-

NEW POSTAL TREATY WITH BELGIUM .- The Postmaster General and M. Delfosse, Minister of Belgium, to-day signed, on behalf of their respective governments, an additional postal treaty between the United States and Belgium, to take effect on and after the 1st of July next. The new treaty fixes reduced rates of postage on letter mails forwarded to Belgium via England, and also by direct steamer from this country to Belgium. The rate, under the new treaty, to that country via England is eight cents, against ten cents under the old treaty, and to Belgium direct six cents. Heretofore we have had no treaty with Belgium providing for the transmission of mails direct between the

HONEY BEES NOT MAIL MATTER .- A letter was recently received at the Post Office Department from a gentleman engaged in bee culture in Michigan, requesting permission to transmit through the mails small wooden boxes contain-ing a queen honey bee and from five to ten workers. The boxes are constructed by boring large holes nearly through a small strip of pine board and covering the upper portion with a net work of wire. Inside each compartment small pieces of sponge saturated with small pieces of sponge saturated with small pieces. small pieces of sponge saturated with syrup are placed for the bees to feed upon. An old ruling of the department prohibits the transmission of such matter and it is not likely it will be reversed. When they were allowed to pass through the mails complaints were frequently made by the postmasters that the syrup soiled the regular mail matter, and that the bees sometimes stung persons who handled the boxes.

THE DEATH OF OAKES AMES .- Representative Oakes Ames died at his residence in North Easton, Mass., at 9.33 o'clock last evening. His disease was apoplexy, complicated with pneumonia. There were present during his last moments, his wife, his three sons, his daughter, Mrs. H. W. French, and her husband, Mrs. O. A. Ames, his grand-daughter, Mrs. Maria H. Ames, his sister, Mrs. S. A. Witherell, his brother, Oliver Ames, his nephew, Fred. L. Ames, and Dr. George B. Cogswell, his family physician. The funeral will take place from his late residence on Sunday. Mr. Ames was was born January 10, 1804, and received a public school education. In 1860 and 1864 he was elected a member of the executive council of Massachusetts. He was elected to the Thirty-eighth, Thirty-ninth, Fortieth and Forty-first Congresses, and was re-elected to the Forty-second by a majority of over three thousand. Mr. Ames was the architect of his own fortunes. He was a poor boy and learned the trade of shovel making at North Easton, a business which was the foundation of the wealth which enabled him to engage largely in manufacturing and railroad enterprises. Easton, Mass., at 9.33 o'clock last evening. His

THE STATIONERY CONTRACTS OF THE INtionery contracts for the fiscal year ending June 30, 1874. There were seventeen bidders in all—one each from Philadelphia, Pa., and Grand Rapids, Mich., six from New York, and nine from Washington—the total number of items of stationery being about one hundred and forty. The following are the names of the successful bidders, together with the number of items on which they were awarded contracts:—James St. John Stationery Co., of New York, 11; Luckey & Crawford, New York, 10; J. Q. Preble & Co., New York, 3; H. M. Hinsdill, Grand Rapids, 1; P. W. Derham, New York, 1; Wm. B. Burr. Philadelphia 4; Warren Choate & Co., 19; J. Brad. Adams, 32; Wm. Ballantyne, 2; Robert Beall, 5. (among them gold pens and press copy books;) R. B. Mohun & Co., 14; Philp & Solomons, 5; Kervand & Towers, 2; John C. Parker, 3—the last eight all Washington firms. It will be seen from the above that the Washington firms will supply about three-quarters of all the stationery required by the department for the year.

How to Encourage Pedestrianism.— Scottsbore, Ala., has ordained that all bar-rooms shall be placed at least five miles beyond its corporate limits; and the consequence is that the inhabitants have taken to suburban pedes-trian exercise in a way to delight the heart of the hygienist.

ARRANGEMENTS POR THE PUNERAL IN NEW

WILLIAM SPRAGUE. THE INSURRECTION IN LOUISIANA Dispatch from Marshal Packard. Forty Federal Soldiers Detailed to Aid in the Arrest of LeBlanche, the

McEnery Leader. Attorney General Williams this morning received the following dispatch from Marshal

NEW ORLEANS, May 8. Hon. George H. Williams:

I have received warrants for the arrest o LeBlanche and ten other leaders of the insurrectionary organization at St. Martin. The accused being in arms, and with strong force, I deemed it best to at once execute the process to prevent the further effusion of blood, and therefore made requisition upon Gen. Emory for a military posse of forty men and two officers which were promptly furnished. Chief Deputy Marshal Deklyne left with the posse, arriving at Brashear City yesterday noon by rail. The regular line of boats of Price, Hine and Tupper, carrying U. S. mails to St. Martin, were withdrawn before the arrival of Deputy Marshal DeKlyne, and laid up at Franklin, and the proprietors refuse the use of boats. There is no other water transportation available there, but it may be supplied in a short time through Gen. Emory. Gen. Badger, commanding the state militia, has been at St. Martin five days whither he repaired to install local "cers This parish was returned republican both Lynch and Wharton boards, and skirmishing has been going on and some wounded on both sides. The latest news is that Badger is holding the town and protecting the court in session. He does not intend to go out to attack. LeBlanche's force is encamped two miles out and two hundred strong and the sides. miles out, and two hundred strong, and they in

turn, it is believed, are not strong enough to safely attack Badger in town. The arrival of the deputy marshal with his posse will end the S. B. PACKARD, U. S. Marshal. THE MEDICAL CONGRESS IN ST. LOUIS .- The American Medical Association in St. Louis yes-terday adopted a resolution providing for a committee of three to confer with the Royal Medical Society of England regarding American representation in the revision of the English system of nomenclature and classification of diseases, with a view to its adoption in this country. A resolution was adopted favoring the establishment of a national medical bureau.

Another resolution was adopted requesting the United States Educational Bureau to so extend United States Educational Bureau to so extend the scope of the inquiry as to include vital disease statistics in relation to meteorological and geological influences, and to disseminate the information so collected through the country. Dr. Toner, of Washington, offered a resolution, which was adopted, that it would be an excellent opportunity at the American centennial in 1876 for an international medical congress, to consider and, if practicable, adopt a uniform classification and nomenclature of diseases, to be used by the profession throughout the world. Detroit was selected as the place of the next meeting, on the first Tuesday in June, 1874. June, 1874.

THE LAMPLEY MURDER TRIAL AT ANNAP olis.—The trial of Hollohan and Nicholson for the murder of old Mrs. Lampley in Baltimore in December last was continued at Annapolis yesterday, and the hearing of the evidence concluded. Officer Crone, of the detective force, detailed the confession made to him by Nicholson as to the murder of Mrs. Lampley, in which, however, he asserted that he had no active transfer. however, he asserted that he had no active participation, though admitting that he went to
the house with the intention to rob; and the admissions of Hollohan, in which he declared that
Nicholson assisted in killing the old lady. The
confession of Nicholson was made in the presence of Officer Crone, John English, and a
brother of the prisoner. The testimony for the
defence was limited to an endeavor to prove
that the confession of Nicholson was induced
by promises of safety made by Officer Crone,
and to evidence as to the previous good character of Nicholson. At the conclusion of the evidence the state proposed to submit the case
without argument, but the counsel for defence
objected.

THE LOUISIANA REBELLION. The Forged Dispatch.

The Forged Dispatch.

A dispatch purporting to have been received by Gov. Kellogg, of Louisiana, from General Sherman, telegraphed to this city by the Associated Press agent in New Orleans yesterday, and published in The Star of last evening, is pronounced to be a torgery. It first appeared in the New Orleans Picayune of yesterday morning. Gov. Kellogg, in transmitting it to Attorney General Williams last evening, said:—"I have received no such dispatch, and I presume it is fabricated. I hope no reliance will be placed upon Associated Press dispatches from here, as the agent is an attache of the Picayune. I am not disposed to be aggressive, but I am trying to protect our people and preserve the peace. I try to act with discretion in this most delicate position, and my anxiety to in no wise unnecessarily involve the Administration causes some of our people to think upe too moderate."

Marshal Packard also telegraphed to Attor-Marshal Packard also telegraphed to Attorney General Williams, inquiring as to the authenticity of the dispatch. The Attorney General immediately sent the dispatch to Gen. Sherman at army headquarters. Gen. Sherman replied: "No such dispatch as is herein referred to has gone from me." Attorney General Williams then addressed a telegram to Gov. Kellogg, saying: "General Sherman informs me that the dispatch purporting to be signed by him is a forgery. So far as I know, you have the hearty sympathy of the Administration in your efforts to suppress lawlessness and violence."

Every effort will be made to discover the author of the dispatch THE ATTEMPT TO ASSASSINATE GOVERNOR

KELLOGG. Senator West has received a telegram from Governor Kellogg, giving an account of the at-tempt on his life. He says that the shot was fired by Railey, one of the McEnery tax collectors; that it was from a pistol, and the ball grazed his neck. He says his coachman dis-tinctly saw Railey aim and fire at him. Senator West says that the office to which Railey was appointed by McEnery is worth \$50,000 per annum, but of couse he has not attempted to exercise its duties. The Senator says these fat offices, of which there are a large number in the

offices, of which there are a large number in the state, are the bane of the people.

THE SKIRMISH AT ST. MARTINSVILLE.

The latest advices from St. Martinsville report the situation unchanged. During the skirmish Wednesday afternoon a young lady of sixteen was wounded in the neck and one man in the communication of the state of in the arm. It appears that the police fired on several houses, thinking there were armed menwithin. Badger's position is considered precarious, and his retreat may be expected at any time. The mayor of the town has been imprisoned for high treason. The number of metropolitans wounded are less than heretofore reported.

U. S. TROOPS FOR THE SEAT OF WAR. Senator West telegraphed Gov. Kellogg yes

terday as follows: "If you are threatened with violent combi nations too powerful to be overcome by your state forces, and you think it necessary to re-quire the aid of the forces of the United States, make a requisition upon the President, in ac-cordance with the constitution of the United States, simply stating the fact and that your legislature cannot be convened, and I know that every means will be placed at your disposa been sent by the War Department this morning reinforcing Gen. Emory.".

A dispatch was published in New Orleans yes-

terday from Gen. Sherman to Gen. Emory, saying:—"If in your judgment more troops are needed in Louisiana, make your call clear and specific, and we will endeavor to supply

The troops at Jackson, Miss., and other points have received marching orders under the above instructions. A special dispatch from Jackson says the entire garrison was to leave there last night for Louisiana. The United States troops are still at Brashears, awaiting transportation. It is generally believed they will not get transportation for several days. THE BLEAKLEY MURDER CASE .- The testi-

mony in the case of Robert Bleakley, indicted for the murder of his niece, closed to-day with a long, partly biographical statement from the prisoner himself. Of the homicide he said: I stated from the house in Hudson avenue, Brooklyn, on the day of the shooting, to visit my nicce Polly, with her sister, who left me at the Fulton Ferrai in correspondent of the prisoners. Fulton Ferry in corsequence of something I said to her, but I decline to tell. I arrived at Neilson Place about 3 o'clock and found my Neilson Place about 3 o'clock and found my niece in her room, lying in bed; I bade her good norning, and she replied: "I didn't expect to see you; why didn't Lottie come?" When I told her Lottie did not desire to come she commenced to abuse me, and angry words passed between us; she then got up and went toward the glass to arrange her hair, still using abusive language toward me, and I took out my revolver and shot her. On going down stairs I met a woman whom I did not know, and passed by her out into the street. I then went to Brooklyn, where I had something to drink for the first time that day.—N. Y. ALLEGED INJUSTICE TO WORKING PEOPLE. A telegram from Providence, R. I., says:—The mill owners of Almyville have, it appears, resolved not to pay the strikers for their last mill owners of Almyville have, it appears, resolved not to pay the strikers for their last month's work, on the ground that they have not kept their agreement with the company, and are not entitled to pay. This is strange reasoning, as the operatives need their money, and have earned it by laboring, from early morning until dark. But what can poor workingmen do against the powerful delaine corporation, the members of which are represented in the municipal, state and national legislatures? The strikers are resolved to stand firm; but the company is also firm, and it is doubtful now whether they would take the strikers back at the old terms. In Woonsocket the large mills are enterms. In Woonsocket the large mills are en-tirely quiet. There has been no violence. The peratives say they will work but ten hours, and the manufacturers are determined to adhere to eleven hours. A few of the smaller mills are running full eleven hours.

HENRY C. BOWEN'S GREAT LIBEL SUIT .-An order of arrest was granted against Henry C. Bowen in Thomas W Field's libel suit against him for \$100,000 damages, and Mr. Bowen gave bonds in the sum of \$10,000. Yesterday mornbonds in the sum of \$10,000. Testerday morning defendant's counsel moved to vacate the order of arrest on the ground, principally, that the order had been granted on the complaint alone, whereas the code required that such an order should be granted on affidavits. Defender should be granted other technical points, and eant's counsel raised other technical points, and intimated that Mr. Bowen was a responsible man—was responsible for the contents of his paper, and would continue to be so. The object of the order, apparently, was only to harass him and gratify the hostility of the plaintiff. Judge McCue reserved his decision .- N. Y.

A NEW ERA in the history of American horse racing is to be inaugurated at Long Branch this season. Admission to the field is to be free to the general public, and an admission fee is to be charged only to the grand stand and quarter-stretch. This is a very decided step toward making horse-racing as much of a popular sport in the United States as it has long been in Eng-land. In fields of circumscribed dimensions like Jerome Park, it may be found inexpedie to imitate the example set by the Long Branch committee, but their action marks a revolution in American turf management, which ought to be met in a correspondingly liberal spirit by the CABLIST DEPRATS IN SPAIN .- Official dis

ARREST OF A CONSUL.

Edward C. B. Garcia, consul general of Uruguay to the United States, was arrested this morning by United States Marshal Fiske on a civil suit for \$11,568.71. In 1867 Garcia, who was then New York agent for a Sonth American company, of Beunos Ayres, contracted with Nathaniel McKay and George Adams, of Boston, to build the steamship Yi for the company. The above amount remained unpaid, and Garcia gave notes for it, payable at a time sufficiently distant to allow him to get the money from Buenos Ayres. When the notes came payable McKay ealled upon him, and Garcia told him he had received the money from the company, but he had lost it in speculation. He is now in cbarge of a deputy United States marshal looking for bail. His case will come up in the United States district court in June. United States district court in June.

Brigham Young's Indian Policy. W THE MORMONS SECURED THE PRIENDSHIP OF THE RED MEN - DISASTROUS EFFECTS WHICH WOULD FOLLOW A GENERAL INDIAN

SALT LAKE, May 8.—The correspondent of the Omaha Herald interviewed Brigham Young and obtained his views of the Indian question. Young said that in 1847 he settled in this country with 140 sonls, and for a thousand miles around them the land was infested with hostile Indians. He gained their friendship by acting honorably with them, and never stooping to deception.

When he made a promise he kept it. That the
hostility of the Indians had been augmented by robberies committed by unscrupulous agents of the government. That they had lost all faith in the honor and integrity of government officials. That the Modocs did to the commissioners just what they thought was being en-deavored to be done to them, and that peace should be made at any cost, or the entire west would be embroiled in a general Indian war. When the correspondent asked Mr. Young whether he indersed President Grant's Indian policy, he replied: "I inderse his policy so far as it corrects abuses and tends to a lasting peace, and to the civilization of the Indians." seace, and to the civilization of the Indians. He also said that an Indian war would destroy commerce, capital and immigration between the Missouri and the Pacific coast, and retard the settlement of the country for twenty years, which would in itself be a great calamity.

CAPTURE OF A MISSING WITNESS .- Harry W. Klien, the missing witness in the Sharkey

case who has been missing for some time, has finally been arrested in Brooklyn by Captain McDonnell, the "Lightening Charley" of the thirty-first precinct. Klien, it was discovered, had found it convenient to make a tour through Canada, but Captain McDonnell invented an ingenious device by which he was tempted to return to this city, when the officer immediately procured from the district-attorney the paers requisite for his arrest, which was affected in Brooklyn, where he had sought refuge with the amiable intention of sailing for California by the next steamer in order to avoid the fate which had overtaken him. Klien had been in the neighborhood but a short time when arrested, and was at once taken before the districtattorney, who, in default of \$2,500 bail, committed him to await the trial of the case. - N. THE NEW YORK LABOR STRIKES.—The strike of the horseshoers employed by the rail-way and stage lines in New York city has extended to most of the companies. Four of the avenue lines-the Third, Sixth, Seventh and Eighth-have employed non-society men. The Crispins in sixteen shops, which have just been classified, threaten to strike unless the advance in wages is conceded. The female Crispins, of whom there is a large number, are expected to strike next week. The Brooklyn Crispins will strike to-day. The German journeymen cap-makers in New York have appointed a committee to report a plan of organization at their next meeting. The men in this business are able to earn only from \$5 to \$6 per week, working sixteen hours per day. The ship-joiners say that as a result of the recent action of the men, some of the employers are already paying the rate demanded—\$4 per day.

THADDEUS STEVENS' WILL .- The executors of the will of the late Thaddeus Stevens are about to apply the residue of his estate to the founding of the orphan home designed by him. Mr. Stevens left a considerable estate, a portion of which was disposed of in legacies and the creation of annuities. The residue, estimated at various amounts, from fifty to a hypothesis. at various amounts, from fifty to a hundred thousand dollars, he directed to be paid to his nephew, Thaddeus Stevens, on the following conditions: If for five years he totally abstained from drinking spirituous liquors, one-fourth; after ten years of similar abstinence, one-fourth more, and the remainder under similar conditions, in fifteen years. These conditions of the residuary legatee having failed to comply with, the bulk of the estate will be devoted to the establishment of the orphan home, provided for in Mr. Stevens' will .- Pitisburg Telegraph.

THE ALLEGED HOMICIDE BY AN OFFICER OF THE ARMY.—A letter dated Orangeburg, S. C., 3d inst., says: "Last evening a discharged soldier from the command of Captain Gallagher, stationed at this place, while under the influence of liquor, met Capt. Gallagher on the street, slapped him on the back in a familiar manner, and asked him to take a drink. The captain refused, and was expressing indigna-tion at the soldier's familiarity, when the latter slapped him in the face. Capt. Gallagher went immediately to his quarters, and, arming himant. He soon met the soldier and shot him at sight, killing him instantly. Capt. Gallagher was promptly arrested, and is now lodged in jail." self with a pistol, went in search of his assail.

DEATH FROM LIGHTNING is thought to be quite painless. Owing to the velocity with which the electric current moves, it is believed that a person struck by lightning has no pre-monition of the blow which he receives. The nervous system requires a certain interval of time to become conscious of pain. The time of an electric discharge is but a small fraction of this interval; hence, as a sentient apparatus, the nervous system is destroyed before con-sciousness can set in.
